Career Information Panel

Wednesday, December 14, 2011 from 12:00 to 1 p.m.
Campus Services Complex, Building D, Training Room

ANNA LEVITT, campus assistant energy manager

Anna Levitt has been the Assistant Campus Energy Manager at UCSD since February 2009. She does the day-to-day work of running the campus’s $73 M energy efficiency program. In 2005, Anna got a B.S. in Engineering from Smith College in Northampton, MA. A combined interest in physics and social sciences led her to engineering in college, having little understanding of what engineering was at the time. After college, she worked as an energy engineering consultant in Massachusetts and San Francisco, and in 2011, she became a licensed Professional Mechanical Engineer in the State of California. When away from work, Anna plays the fiddle with a local band called River City, and sings folk songs on her front porch.

DOUG CARLONE, child care center business manager

Doug started at UC San Diego as assistant manager at Revelle Dining. He was promoted to manager and at the School of Medicine Club Med dining unit. He was then promoted to principal food service manager in Retail Services. In his new capacity as business manager, Doug is responsible for the overall business, fiscal and administrative duties for UC San Diego's Early Childhood Education Center. He provides financial analysis, reports, and recommendations; purchasing; fiscal administration; budgetary analysis and management; contract and grant administration; and coordination of internal and external audits.

ALONSO NOBLE, assistant superintendent/waste manager

Alonso leads a team of 21 landscape technicians assigned to eight housing areas, five dining facilities, the University House and the child care complex. He manages the contract between Facilities Management and Housing, Dining and Hospitality for the landscape maintenance of the latter. Alonso concurrently manages the waste reduction and recycling program of the campus, raising awareness of waste reduction and recycling. He supervises a team of 3 recycling laborers in this role. He manages the campus-wide pest control contract that emphasizes the use of Integrated Pest management (IPM), which is consistent with the sustainability goals of the University.
Career Connection Programs

Career Connection is a free, comprehensive career development program for UCSD staff. It provides information and tools to assist you in achieving greater job satisfaction, current job enhancement and lateral or upward career mobility. All UCSD staff employees, retirees and individuals on lay-off status are eligible to join Career Connection.

Career Consultations
Provides one-on-one assistance to employees who are interested in assistance with career planning, goal setting, job enhancement and lateral or upward mobility.

Mentoring Program
Matches employees with mentors who can provide career assistance as role models, information providers, or as coaches. For more information, visit mentorship.ucsd.edu.

Internship Opportunities
Allows employees to work part-time in other UCSD departments to obtain skills and knowledge needed for career enhancement.

Promotion Project
Provides training funds to encourage departments to hire and train UCSD employees for openings in selected job classifications.

Information Interviews
Allows research and information gathering about jobs and departments at UCSD.

SkillScan
Visit skillscan.com/corp/ucsd.edu for the new and innovative web-based, self-directed transferable skills assessment tool!
